

SABCCI CAT SHOW 13TH APRIL 2025

JUDGES REPORT MS JANE E ALLEN

Thank you to Gloria, Carmel and the team for my invitation judge this year. A show full of special features and with a good entry I had a very busy day. Congratulations to all concerned.

HIBERIAN GRAND PREMIER MALE

INV Dr WAGNERS SUP TARA IS HIBGRPR&INT PR SILVERFERN FRENCH KISS
MCO n 03 22 MN 22.3.18

What a wonderful start to my day!! Truly outstanding Maine Coon looking in tip top condition. Large, well placed ears with correct distance between them. Wide, broad head with high cheekbones. Square muzzle with level bite and good depth of chin. In profile his nose showed a shallow concave curve. Lovely eyes for shape and set and so expressive. Massive long rectangular frame supported on well boned medium length legs and strong round paws. His tail balanced his body well and was well furnished. His coat was of super length and texture with clear classic tabby markings. Groomed to the last hair. What more can a judge ask for. I read later that this was his swan song and I wish him a long and happy retirement.

HIBERIAN GRAND PREMIER FEMALE

INV SAME OWNERS SUP HIBGRPR&INT GRPR ISHCUS QUEVAGA MCO f 03 22
FN 18.6.19

Just when I thought I had been fortunate to have such a good cat Quevaga was my second in line!! Another incredible example of the breed she is really like the standard of points purrsonified. Lovely balanced head and with typical expression! Super balance to her broad head with large well set ears. Wide high cheeks with strong squareness of muzzle, level bite and lovely depth of chin. Again massive but not fat frame with excellently boned legs and strong paws. Her tail was long, well furnished and balanced her frame perfectly. Lovely coat, vibrant colours with classic tabby pattern clearly evident. Again groomed to perfection and handled like a dream. Congratulations on her overall BIS win so very well deserved. My privilege to judge two such wonderful cats.

SECTION 1

CHINCHILLA/BLUE CHINCHILLA/SHADED SILVER/BLUE SHADED SILVER PERSIAN

1 CC BOB MS WAITES SUA MAESTA LOUIE PER ns 11 64 M 29.3.23

I was very taken with this boy he had such a lovely expression and balance. Super width of head with neat, rounded tipped ears set low on his skull. Large, expressive green eyes nicely outlined. Short nose with good nostrils, brick red leather again well

outlined in black. Full cheeks with near level bite and good depth of chin. Super body , cobby and stocky with good weigh. Strong, round paws. Tail well furnished, was short and balanced his body nicely. His coat was very well groomed and generally evenly shaded with very clear silver at the base. Very good to handle and a gentle, sweet boy.

AOC SELF COLOURPOINT PERSIAN (INCL BLUE) ADULT

1 CC withheld MRS & MISS CAUGHEY HINCHKITZ MIDDLEMIST RED PER d 33 F 20.5.23

I was really sorry to withhold on this girl but she really did not score highly enough for the certificate. Rather a small female and needing a little more weight, perhaps she has been calling? Round head with quite small ears set well apart. Short nose I would like larger nostrils and wider leather. Quite full, rounded cheeks. Level bite and quite a firm chin that was slightly discoloured. Her eyes were a sound blue tone but she was really not keen to open them fully. Her body was cobby and compact. Quite well boned legs and round paws. Tail balanced. Sadly her coat was not at its best being very short on her legs. Strong red points colouring and clear apricot white to her body. Sadly as I said to her owner later she just a several little things that all added up to me having to make my decision. I am sure later in the year she will look so much better.

BLUE PERSIAN NEUTER

1 PR BOB MRS HARTES DAISYDAISYCATS DAY DREAMER PER a MN 27/5/22

This mature lad had really lovely head type and expression. Large, broad head with super wide top and tiny low set ears with lovely rounded tips. Smooth skull with short, snub nose, good leather and nostrils. Wide cheeks, slightly undershot bite and firm chin. His eyes were deep copper and lovely size and shape. Cobby and stocky frame with well boned legs. Short tail finished off his balance nicely. His coat was short and mid blue and even in tone. However, he was lucky to get the ticket as he really needed much more preparation to his underparts. I know that type of coat is hard to keep looking good but he is a lovely boy and deserved to look better. I hope his owner can get a few tips and make him look better next outing.

SECTION 2

AC BICOLOUR OR MITTED RAGDOLL KITTEN

1 BOB MISS PSIUKS TEQUILA LIDERLAND RAG n 04 21 F 26/7/24

Nearing adulthood but as a kitten I did give her the benefit of stages of development on the day. Quite a good width of head with decent width between medium sized ears. Flat plane to top with gentle dip in her profile. Well set, sound blue eye colour. Level bite, her chin could have been a little deeper. Quite well grown body and well boned legs and paws. Her tail balanced her body well. Well marked points

contrasting well against her body colour. Her coat was still rather kitteny in texture. Well groomed and good to handle.

MAINE COON SILVER TABBY SERIES KITTEN

1 BOB MRS MCEVOYS PROLOVE OPHELIA MCO fs 03 22 F 21.9.24

Very well grown girl with quite a good width to her head. Large upright ears with good width at their base. Quite broad, high cheeks. Shallow concave curve in profile with level bite and good depth of chin. Lovely eyes for size, shape and set. Fairly square muzzle. Long, rectangular body well built and proportioned for her age. Her legs, medium in length and with good bone and strong paws. Long, well furnished tail. Her coat was showing attractive tones of silver tortie and clear classic patterning. I would have liked to see better presentation to really do her full justice.

2 MISS SWIACKA NABARRA'S MAASAI MARA MCO ns 22 F 17.8.24

I thought this girl had promising type with good balance for her age. Large, well placed ears set high on her head with quite good width between. Breath developing to her cheeks. Good squareness to her muzzle with level bite and decent depth of chin. Her eyes were slightly obliquely set, of good size and lovely expression. Well toned body supported on well boned legs and large, strong paws. Her tail was long and balanced her body well. My main reason for placing her second was her coat colour and pattern. Her silver was rather tarnished and appeared almost brown. Her back was completely solid black and the classic patterning needed far more definition.

AOC MAINE COON KITTEN

1 BOB MISS SWIACKA KIT'SCOON MASTERPIECE MCO ns M 28.8.24

Gentle, well grown chap. Large ears that were well placed on his head. High cheeks with pleasing breadth to his head. In profile his nose showed a shallow concave curve. Quite a good squareness to his muzzle. Quite large eyes that were very slightly obliquely set and yellow in colour. Long, rectangular body of good weight supported on medium length, well boned legs and strong rounded paws. His tail nicely furnished and balanced his body well. My main concern was his coat, registered as a smoke he currently looked more shaded to me but as he is still a kitten I made some allowance for possible coat development but as an adult if the mantle does not darken then re registration might be needed. He was very nicely shown and in lovely condition.

2 MR MCNEELYS KATEZ BILLYCALLEDULA MCO ds MN 31.8.24

So well grown and such a lovely natured lad! I just felt his head is too narrow currently, he needs more breadth to his cheeks and more developed squareness to his muzzle. Quite large ears were rather high set on his head. His eyes were a little

small and rather straight set. However, I loved his body the size, length and substance all very nice. Well boned legs and paws. His tail balanced very nicely. His coat was again in that developmental phase but showing a decent amount of red to contrast with the silver undercoat.

SECTION 3

HIBERNIAN GRAND CHAMPION MALE

HGC Mrs KISIELIENE GRCH GARFIELD OF GERULIS*LT BSH b M 25.5.17

Mature and stylish lad. Round head with well spaced quite neat ears. Short, broad nose with wide cheeks. He did just let me check his bite which was level and I just would wish for a little firmer chin. Lovely deep orange toned eyes that were large and expressive. His body was compact, broad shoulders and rump and very heavy supported on well boned short legs and round paws. His tail balanced his body well with rounded tip. Short, dense and virtually sound warm rich chocolate tone to his coat. Looking very much the part and with an attitude to match!

RES MRS KISIELIENE GRCH JUST ENJOY NAVAHO BSH a M 26.11.20

Another stylish lad, overall of a smaller build but still well balanced. Round head with quite neat ears placed widely apart on his head. Short, broad nose with full cheeks, level bite and adequate depth of chin. Large, expressive orange eyes. Stocky frame with good weight and depth supported on short, well boned legs and paws. Tail balances his body well. I really liked his coat texture, really short, thick and dense with definite crispness to the texture. Mid blue in tone and minimally shady at the roots. Well shown and gentle disposition.

GRAND 3A CHAMPION MALE

GRCH MRS RICHARDSONS CH C-ZEUS ML BSHb 33 M 12.12.22

This boy really made me smile with his laid back attitude! Round head with wide spaced smallish ears. Short nose with full cheeks. Level bite and adequate chin depth. Broad chest and wide shoulders and rump. Excellent body weight and tone with super short, well boned legs and paws. Tail balances nicely. His body coat was dense and crisp and attractive ivory tone which contrasted well against his well marked warm chocolate points. He was nicely shown and charming to handle!

RES MR LOCKYEARS CH MAYAEMPIRE NICHOLAS WHITE BSH ns 12 M 17.4.22

Sweet gentle natured lad. Quite a good roundness to his head with good space between his ears that were a little pointed at the tips. Quite a short, broad nose with decent break. I would have liked to see a little more strength to his lower face. His body was fairly compact and of lovely weight and tone. Short, well boned legs and round paws. His tail, rounded at the tip, was in balance to his frame. His coat was generally evenly shaded perhaps a little heavier than his breed number would

suggest but it even and that is the paramount importance and with super crispness to the texture.

GRAND 3A CHAMPION FEMALE

GRCH MRS KEHOES CH FEDERICA OF LAST HOPE BSH a F 4.9.22

Not an overly large girl but well proportioned. Round head with good width between fairly neat ears. Short nose with as deep a break as I will accept to comply with the standard of points. Full cheeks with a level bite and good depth of chin. Overall she does have a nicely balanced head and expression. Cobby frame with broad chest and lovely width to shoulders and rump. Short, well boned legs and round paws. Tail, rounded at the tip balances her frame nicely. Her coat was thick and really crisp, just a little shady at the roots. Well shown and handled nicely

GRAND 3B CHAMPION MALE

GRCH MRS PAULUSKIENE INT CH JUDITA'S BRITISH APOLLO BLH ny 12 M 28.5.22

Well grown, attractive male. Really good breadth of skull with well held small ears. I really liked his large, expressive green eyes that were nicely outlined in black. Short, broad nose with brick leather and again well outlined. His bite was level and decent depth of chin. His body large and stocky with lovely broad shoulders and rump. Short, well boned legs and paws. His tail was well furnished and again in balance to his frame. His coat was quite long and thick and with a degree of resistance felt. Overall he was well groomed and his coat had a warm apricot tone with generally evenly tipping.

BRITISH BLACK ADULT

1 CC withheld MS KIRNAJA FURRYBLISSLOVE ARIA BSH n F 4.9.22

Rather a small female particularly given her age. Round head with quite neat ears set a little high on her head. Large, orange eyes. Fairly short nose and lacking a little in lower facial balance. Level bite and a reasonable depth of chin. Her frame was small and a little lacking in substance. Quite good boning to her short legs. Tail balances her body. Her coat was quite a dense black in tone but lacking undercoat and density. Sorry but she just did not score highly enough for the certificate today.

BRITISH CHOCOLATE ADULT

BOB GRCH GARFILD OF GERULIS*LT

BRITISH LILAC ADULT FEMALE

1 CC MRS KISIELIENE AMBERKISS XENNA BSH c F 26.5.24

Young 10 month old girl but with very nice balance and expression. Round head with well spaced quite neat ears. Round eyes of lovely expression and a good sound

orange tone. Her nose was short and broad. Full cheeks with a level bite and quite a good depth of chin. Her body was cobby and compact with lovely weight, nicely boned short legs and round paws. Tail, rounded at the tip finished off the overall balanced look to her body. I loved the pinky lilac tone to her coat which was also thick and dense a little soft in texture. Nicely shown and sweet to handle. Still needing time to mature but hopefully that will come.

BOB to MRS KEHOES GRCH OSCAR SAMANTE-BOHEMIA BSH c M 17.4.22

Entered in the Hiberian class and sadly unplaced there but very worthy of the BOB, Large, very well grown lad who had a lovely body shape and structure. Round head with slightly large ears that were quite well spaced apart. Large, mid orange toned eyes. Short, broad nose. Round cheeks and large stud jowls that did detract just a little from the facial balance. Level bite and just a little shallow on his chin. His coat was thick and dense and with some degree of crispness. A pleasing tone of lilac and quite sound in tone. Super gentle lad to handle.

BRITISH BLUE ADULT MALE

1 CC MRS KISIELIENE AMBERKISS TEDDY BSH a M 18.3.23

Mature boy with good top of head and well placed, quite neat ears. Short broad nose with wide cheeks. Good bite he could have benefitted from a little more depth of chin. He had a compact and generally well filled body, I felt he looked a little lean on his flanks but I would guess that he is a working boy and this may well have been the reason. His coat was thick and dense but showing some silver tipping over his back. He just about scored enough for the CC but I would have liked him to have been better presented for the show.

BRITISH BLUE ADULT FEMALE

1 CC MRS KISIELIENE AMBERKISS WILMA BSH a F 25.5.24

At just 10 months old this young lady still has some maturing to do but overall she was a pleasing example of the breed. Round head with quite neat ears nicely placed on her skull. Large, round eyes of good colour. Broad nose with developing width to her cheeks. Good bite and chin. Her body was compact and of good weight. Her coat was short and thick and a mid blue in tone. Good to handle.

BOB GRCH JUST ENJOY NAVAHO

BRITISH BLUE/LILAC/FAWN TORTIE AND WHITE ADULT

1 CC BOB MR STEELES SHEEPHOUSE COLOUR ME FANCY BSH r 03 F 2.3.24

A stylish young lady fawn tortie and white, with round head and well placed quite neat ears. Large, round mid tone orange eyes. Quite a short nose with full cheeks surrounding. Level bite and firm chin. I liked her compact and weighty body with broad chest and strong shoulders and rump. Short well boned legs and paws. Her

tail balanced her body nicely and with a rounded tip. Her coat was lovely thick, dense and with some crispness. Lovely clarity of patching with delicate tones of cream and fawn broken with white. Overall a really pleasing youngster and shown very well and in super condition.

BRITISH TIPPED ADULT MALE

1 CC withheld MS KIRNAJA IREMOOBR ARON BSH ns 12 M 8.5.23

Large, gentle boy who was very well grown. Quite a round head, he just needed more fullness to his lower face for facial balance. Ears were a little large and high set. Pale green, expressive eyes. Fairly short nose, level bite and a shallow chin. His body was of lovely weight and condition but a little long. Fairly short legs that were nicely boned. Tail was in balance to his frame. His coat was thick and dense showing slightly uneven shading and with ghost tabby markings to his legs.

BRITISH TIPPED ADULT FEMALE

1 CC withheld MS KIRNAJA IREMOOBR ALMA BSH ns 12 F 8.5.23

Small female rather lacking in roundness to her head and cheeks. Fairly large pointed ears needing more width between. Large, pleasing tone of green to her eyes. Fairly short nose but needing width to fully balance her cheeks. Level bite and needing more chin to balance. Her body was compact but small. Her coat was unevenly shaded and her tail showed rings. She handled well and was nicely shown.

2 MR LOCKYTER IRENANBR SILVERY GODDESS BSH ns 12 F 15.4.24

Very immature and small female. Her head needs time to broaden and fill out. Her ears were rather upright on her head. Round, rather pale coloured eyes the colour was still developing from the centre. Fairly short nose, cheeks need to fill out further. Level bite and a rather shallow chin. Her body was on the small side with short legs. Tail balanced her frame. Her coat was thick, a little long and heavily shaded but this was even and a lovely clear silver at the base. Nicely shown and sweet to handle.

BRITISH COLOURPOINTED (INC CINNAMON/FAWN) ADULT

1 CC MS KIRNAJA FURRYBLISSLOVE AMARUS BSH ny 12 33 M 24.3.24

This boy had the most incredible eyes of deep blue that really dominated his face! Overall he had a very pleasing expression with good top of head and neat ears. Short, broad nose with full cheeks. Level bite and a good depth of chin. His body was well grown for his age with broad chest, shoulders and rump. His legs were short and well boned. Tail balanced nicely. His coat was thick, dense and short showing minimal shading over his shoulders. His points colouring was very well developed everywhere. Good to handle and very worthy of the CC.

BOB CH C-ZEUS ML

BRITISH GOLDEN TIPPED ADULT MALE

1 CC MS KIRNAJA DIVINEYES MAO OR MITZURO BSH ny 12 M 3.10.21

Mature boy with a lot to like about him. Round head with good width between quite neat ears. Expressive large, seagreen eyes with good liner around them. Broad nose with brick leather again well outlined. Quite wide cheeks with a level bite and firm chin. Well balanced body that was heavy and supported on short, well boned legs and paws. Tail, rounded at the tip again was in balance with his body, His coat was evenly tipped and a lovely warm apricot tone with black tips. Handled well and nicely shown.

2 withheld

3 MRS COSMAS HAPPY WHISKERS RAMIS BSH ay 12 M 1.6.23

I was very sad to see this boy as although he was fundamentally a nicely typed boy he was completely out of condition and with a large bald patch on his back. I do hope he will be able to look much better later in the season. Sweet nature.

BRITISH GOLDEN TIPPED ADULT FEMALE

1 CC MS KIRNAJA AURUM BLOSSOM DANAYA BSH ny 12 F 22.6.23

Sweet but slightly nervous girl. Rounded head with rather pricked ears that I put down to her being rather worried. Her eyes were large, round and a lovely green colour. Short, broad nose with quite a good width to her face. Level bite her chin was a little shallow. Compact, cobby frame with feminine proportions. Short, well boned legs and paws. Tail balances. Her coat was short and dense, warm apricot tones with even black tipping

2 MRS COSMAS GOLDEN FAIRYTAILE ELSE BSH ny 12 F 22.6.23

This little girl was very nervous indeed and really did not do herself justice. Generally she had nicely balanced head type but she was really hard to assess. Her body was very light and lacked substance. Warm tones to her coat and reasonably even tipping. Thick dense coat texture.

BRITISH LONGHAIR ADULT

BOB INT CH JUDITA'S BRITISH APOLLO

End of report

Ms Jane E Allen
